

Declaration of SDGs and Priority Goals

Perspective of the Declaration of SDGs

Ambi Group's philosophy is as follows: "It is our mission to take actions that will foster the development of regional communities." We hope to accomplish this by working to achieve the SDGs relevant to social and environmental issues and proactively grapple with initiatives through our business activities.

In this context, upon declaring our SDGs, we have determined our priority issues and policies for action that are centred on six out of 17 SDGs goals, and we hope to achieve these goals while recognising the business contents and service areas of the Company.

Based on our declaration of SDGs, we are making efforts to further strengthen initiatives on social and environmental issues through our business activities as well as to realise a sustainable society and create economic value. In addition, we intend to expand SDGs actions to all the local communities by raising awareness and disseminating SDGs for our clients and supporting them in their efforts to achieve the SDGs.

Our Sustainable Commitment

SDGs that have close ties to the service areas and business operations of Ambi Group.

SDGs to which Ambi Group is able to make a valuable contribution.

SDGs (Sustainable Development Goals) represent 17 goals posted on the "2030 Agenda for Sustainable Development" adopted at the United Nations Summit in September 2015. The goals address solving social and environmental issues through achieving "just, peaceful and inclusive societies," "zero hunger," and "gender equality" by 2030, to realise a sustainable society.

Declaration of SDGs and the Mid-Term Business Plan

The Ambi Group 2024 Mid-Term Business Plan, "Advance Business with Purpose", is based on the ideas expressed in the declaration of SDGs. Ambi Group is tackling actions toward achieving the Mid-Term Business Plan that will allow people to realise a rich, fulfilling life that is closely tied to the development of sustainable communities in the regions of our clients and secure stable and sound revenues for the future.

Corporate Philosophy

It is our mission to take actions that will foster the development of local communities.

Ambi Group Declaration of SDGs

We are working to achieve the SDGs through our business activities, which will foster the development of local communities, realise a sustainable society, and create economic value.

Mid-Term Business Plan "Advance Business with Purpose"

A consulting agency that responds to clients' needs and delivers value by innovation on creating shared value.
